

SCHROTH C1 CERTIFICATION COURSE TO TREAT PEOPLE WITH SCOLIOSIS In Taiwan

**Scientific and practical training for treating patients with scoliosis
for physical therapists and physical therapist assistance
9-day course, 64 CEU
(MD, and CPO who treat scoliosis can attend for observation)**

The Barcelona Scoliosis Physical Therapy School (BSPTS) program teaches 3-D scoliosis treatment according to the principles of Katharina and Christa Lehnert Schroth that began in Germany in the 1920's.

DATES: Saturday, September 07 – Sunday, September 15, 2019

HOSTED BY: UprightCome Scoliosis Clinic

ADDRESS: No.129, Keda 1st Rd., Zhubei City, Hsinchu County 302, Taiwan
(R.O.C.)

CONTACT: Please send your resume, copy of PT certificate and registration form to uprightcome@gmail.com. Once you pass our verification, you will get a confirmation letter with payment methods.

INSTRUCTOR:

Hagit Berdishevsky, PT, DPT, Cert. McKenzie (MDT), Schroth-BSPTS Educator, is Director of Clinical Academic Research with Columbia Orthopedics at Columbia University Medical Center, Chair of the Education Committee of the International Society on Scoliosis Orthopedic and Rehabilitation Treatment (SOSORT) and owner of the Scoliosis and Spine Physical Therapy Clinic in New York City. She specializes in scoliosis and spine rehabilitation for non-operative, pre-operative and post-operative patients of all ages. Dr. Berdishevsky graduated in 1998 from the Wingate Institute's Physical Education and Sports Science Program in Israel with a specialty in Postural Defects Cultivation. She received her Master's degree in physical therapy from Hunter College, part of the City University of New York, in 2005, and her Doctor of Physical Therapy degree from St. Augustine University (Florida) in 2013, specializing in sports rehabilitation. She worked for 10 years at the Hospital for Special Surgery as an Advanced Clinician. In 2009 Dr. Berdishevsky became certified in Mechanical Diagnosis and Treatment (MDT) by the McKenzie institute. She was certified as a Schroth scoliosis therapist by the Asklepios Katherina-Schroth Clinic in Germany in 2009 and by the Barcelona Scoliosis Physical Therapy School (BSPTS) in Spain in 2011. Hagit became a teacher trainer for BSPTS in 2013. She regularly presents to therapists, surgeons and physiatrists on the Schroth Method, osteoporosis and core stabilization. In addition to the basic and advanced courses she offers to train physical therapists in the Schroth Method, she has co-developed and co-teaches Pilates Adaptation for People with Scoliosis and Integrated Wisdom: Yoga Adaptation for People with Scoliosis. She regularly lectures on the topics of scoliosis, spine care, osteoporosis and core stability at conferences and to community groups. Based in New York City, Dr. Berdishevsky teaches and lectures throughout the United States and Internationally.

BSPTS APPLICATION Level 1 Certification Course (C1)

Applicant Name:	
Credentials: (PT, MPT, DPT)	
State License #:	
Home Address:	
Phone Home/Cell:	
Business Email Address:	
Employer Name:	
Employer Address:	
Employer Phone\Fax:	
Employment Years: - Total years employed - Years at current employer	
Avg. Hrs/Wk in Patient Care	
Describe Current Patient Care Mix (ortho, neuro, peds, scoliosis, etc.):	
Describe Your Past Training/Experience in Scoliosis Patient Care:	
Describe Your Goals for Using Method Following Course Completion:	
Course Applying For: (date and location)	
How Did You Hear About Us:	
Additional Information:	

I understand that completion of C1 course does not guarantee C1 certification, and that in order to obtain certification, I must pass the BSPTS C1 written exam given at the end of the C1 course. A score of 75% is required for passing. If I fail to pass the C1 exam, I will be required to retake the C1 exam within 3 months, which may be proctored from a remote location. If I fail a second time, I will be required to take the course at full cost before retaking the certification exam.

I understand that BSPTS C1 certification is primarily intended for use in 1:1 individual physical therapy treatment of patients with Adolescent Idiopathic Scoliosis (AIS). It may be applied with limitations in other cases, such as neuromuscular scoliosis. It is not intended for entry level use in adults with painful, degenerative scoliosis, group therapy, or immersion type training, which are best provided after C2 certification (see below). I also agree that I will not use the material to train other physical therapists in treating scoliosis.

I understand that in order to retain my BSPTS C1 certification, I must attend the BSPTS C2 course between 1-3 years following C1. Failure to attend C2 within 1-3 years of C1 will result in loss of my C1 certification. BSPTS C2 certification is required for treatment of adults with degenerative and painful scoliosis, patients post scoliosis spinal surgery, and providing group and immersion type training.

I agree to sign the BSPTS Ethics of Practice Agreement upon completion of the C1 course.

Applicant Name	Applicant Signature	Date
----------------	---------------------	------

CEUs: 65-68 (CEU approval for state in which the student resides/practices is the responsibility of the student)

Course Fee:

C1 Certification – 102,000 NTD

Observation – 57,000 NTD

Course payment is due in full at the time of registration. Class size is limited to 10-14 (varies by instructor). Early registration is recommended.

Course Cancellation Policy:

Due to the involved nature of course organization, cancellation policy is as follows:

1. If registrant cancels with less than 30 days notice:
 - If cancelled spot is filled with another attendee, a refund will be issued, less 10% service charge
 - If cancelled spot is not filled, there will be *no refund* of course fees.
2. If registrant cancels with more than 30 days notice:
 - Refund will be issued, less 10% service charge
3. We reserve right to cancel the course at any time due to low attendance or other conflicts.
 - Should the course be cancelled by instructors, full refunds will be issued.
